BLACK POWDER SURVEY

METALIC CARTRIDGE AND MUZZLE-LOADING SPORTING ARMS

The Black Powder Committee of the DMSC is currently conducting a survey to determine the total number of members that are interested in becoming part of the Black Powder Fraternity.

This discipline will include the use of flint and percussion as well as metallic cartridge rifles, pistols and shotguns from the earliest colonial era through all of America's military engagements from the French and Indian War, our American Revolution, War of 1812, Mexican War, the American Civil War, and the Western American Indian conflicts

Whether you "patch" a round ball, load a military "minie ball", shoot a modern "inline" or a black powder "cartridge" gun, we would like to see you on the range as a shooter or a competitor.

If you would like to demonstrate your competitive spirit with the use of these antiques or exercise your hidden enthusiasm for black powder, your participation is welcome.

The inaugural ARC Clinic was well received. The weather was very cooperative and the donuts were delicious. During morning and afternoon sessions, seventeen participants went through 3.5 hours of classroom instruction, dry fire rehearsal, and live fire practice. This action rifle clinic involved a bit of learning, a bit of trials & tribulations, but a whole lot of fun. That seemed to be reflected in the enthusiasm of all including the RSO staff. We hope that everyone will continue their journey into the sport of action rifle by attending any of the seven upcoming America's Rifle Challenge events here at DMSC.

Weather was super and although the ground was a bit soggy, we made it out to the 200 yard line. And all eleven shooters were witness to some of the heavy hitters – just look at those scores. Congratulations to Fritz for another outstanding top score of 496-25X; Tom was not at all shabby with a superb 491-16X. It is indeed a pleasure to see individuals of this caliber (no pun intended) perform at such levels. A hearty welcome to Mark Chiocca – a first time participant in High Power. To all of the shooters – great job – all of the scores look great! Next match is set for June 2nd.

Quite a pleasant day to be on the range! Diffuse light, moderate temperatures, light breeze. We had nine new shooters on the line and all performed admirably. Getting the feel for smoothly operating the M1 can be a hurdle that is quite satisfying to master. Perry Wanachek shot match high score of 477-10x with his 'Black Rifle'. In the .30 caliber category Mr. Augenstein bested Mr. Hildabrand by four slim points in the 460's. So glad to be there with you for a fine match! Thank you all for your cooperation and attention to details of range safety.

DMSC Conducts Safety Reviews

Range Safety Officers (RSOs) will conduct random membership checks and safety reviews. RSOs will meet with members and guests while at the firing range. Each member will be given a green safety card with important safety information to review, membership ID's will be checked, a green sticker will be affixed to the membership card, and a copy of the range rules will be made available. It's important for all members to review safe gun handling procedures and to focus on the safety rules for each range used. The RSOs will be wearing a distinctive safety vest or hat and will only ask for a few minutes of your time.
