# **BLACK POWDER SURVEY**

## **METALIC CARTRIDGE AND MUZZLE-LOADING SPORT- ING ARMS**

The Black Powder Committee of the DMSC is currently conducting a survey to determine the total number of members that are interested in becoming part of the Black Powder Fraternity.

This discipline will include the use of flint and percussion as well as metallic cartridge rifles, pistols and shotguns from the earliest colonial era through all of America's military engagements from the French and Indian War, our American Revolution, War of 1812, Mexican War, the American Civil War, and the Western American Indian conflicts

Whether you "patch" a round ball, load a military "minie ball", shoot a modern "inline" or a black powder "cartridge" gun, we would like to see you on the range as a shooter or a competitor.

If you would like to demonstrate your competitive spirit with the use of these antiques or exercise your hidden enthusiasm for black powder, your participation is welcome.

# WOMEN ON TARGET

From the Women of the NRA

The *Women On Target* event on June 10th was a big success as we had 27 participants shoot various handguns and rifles and even learn about firearm maintenance from the best volunteers in the region. Thanks to all who came to participate and especially the volunteers who made this program possible.

From the event coordinator:

I would like to extend my deepest thanks for the collaboration of the June 10th *Women on Target* Event.

This event would not have been possible without each of you that gave up a Sunday to volunteer to train the participants and support the event.

An extra big thank you to those that also helped to set up on Saturday. It is an honor to know you and be a member of the Mt. Lebanon/Dormont Sportsmen Club with you.

Working with all of you has been a delight and I again extend my sincere gratitude.

PM match was conducted with heat and humidity bearing down on the competitors, but excitement and perseverance overcame the elements. This action rifle sport is making a solid impact here at DMSC. High Scores for each stage are highlighted - Congrats to Chris Phillips for being top dog in a field of strong competitors.

A beautiful day for a rifle match. Good light, moderate temperatures, light breezes. We were glad to welcome multiple new shooters to the line. Bruce Long tamed his M1A and put up a 468-15 with a .30 cal gas gun. Allan Jaworski shot match high 489-23x with a match bolt action rifle using a telescopic sight. Chuck Augenstein put up a 480-14x as high mouse gun. Thank you all for your cooperation and attention to details of range safety.

**ALWAYS** unload, remove the magazine, and open the action of a firearm when someone is going down range.

**ALWAYS** wear proper eye and ear protection at the range.

#### **DMSC Conducts Safety Reviews**

Range Safety Officers (RSOs) will conduct random membership checks and safety reviews. RSOs will meet with members and guests while at the firing range. Each member will be given a green safety card with important safety information to review, membership ID's will be checked, a green sticker will be affixed to the membership card, and a copy of the range rules will be made available. It's important for all members to review safe gun handling procedures and to focus on the safety rules for each range used. The RSOs will be wearing a distinctive safety vest or hat and will only ask for a few minutes of your time.
